Warranty Claim Instruction:

While the lens is under the term of this warranty, if you have a claim, please return the lens to the dealer where you purchased it. If that is not possible, return it to Tamron Americas, New York for USA owners and Amplis Foto, Toronto for Canada owners. Include with the lens proof of purchase from an authorized Tamron dealer (valid proof of purchase must be a dated bill of sale that includes price, model and serial number of lens and/or warranty registration ID number assigned upon completion of Tamron's Online Warranty Registration at www.tamron-americas.com) and a description of the defect claimed. If you have an online warranty registration ID number (USA only), please include that number in your description. If Tamron determines your lens to be defective, we will repair or replace it at NO CHARGE.

If you would like to send in your lens for repair service, please include the "equipment repair form" from Tamron Americas if in [USA](#) or Amplis Foto if in [Canada](#), and also include a copy of your sales receipt or your warranty confirmation number. If we determine that the warranty has been voided, we will notify you and give you a cost estimate. Please DO NOT include filters, hoods, or other accessories besides the front cap and rear cap. Please do not send your product box. Instead, we recommend wrapping your lens very well in several layers of bubble wrap so that it fits tightly and securely in your shipping box. You are responsible for the cost of shipping the lens to us for service, and we will cover

the cost of returning the lens to you within the United States or Canada (we are not responsible for international shipping charges, duties, fees, etc.).
